

Bringing your vision to life

Abundance and Opportunities

A skilled developer who has constructed 53 villas in a city with abundant opportunities. Nature and beauty combine with the professionalism of planning the greatest specifications and the mastery of constructing the best elements, resulting in one-of-a-kind residences.

Eastern Province

A privileged and historically significant economic zone

Everything in this region reflects the character of its people, from the Arabian Gulf Coast to the Empty Quarter Desert. A privileged and historically significant economic zone, at the forefront of oil production and reserves, and an East-West link.

Eastern Province, the entrance to the Arabian Gulf and the gateway to the world, offers its citizens a wonderful quality of life. It receives ongoing government support in a variety of urban, demographic, economic, cultural, environmental, transportation, and digital infrastructure sectors.

Bringing your vision to life with easy access to it

We have selected a location that combines wellness, sustainability, and security.

Aseeb provides greenery, integrated services, and smart modern standards near the cities of Khobar and Dammam and the most crucial points. Dammam South Corniche, Al Rakah, and Imam Abdulrahman Bin Faisal University are a few minutes away. Aseeb is also in close access to all of the area's amenities, making it an ideal place to live.

Tharwa City A Future-Centered World

Tharwa, the latest smart city in the Eastern Province and the winner of the Best Multi-Use Project Award 2020, 2021 with the highest rating, stands out in the center of everything.

Tharwa city is the ideal embodiment of life and vitality, well-being and sustainability, integration, and stability. It has been designed to reflect the brilliant presence of smart infrastructure, environmentally friendly energy, and the requirements of modern life.

The infrastructure has been thoroughly built to place essential and recreational needs within a short distance of residential areas. In addition to the strategic separation of adjacent properties, which affords each family the utmost level of privacy, traffic is structured to improve safety and smooth mobility.

- Run your errands walking

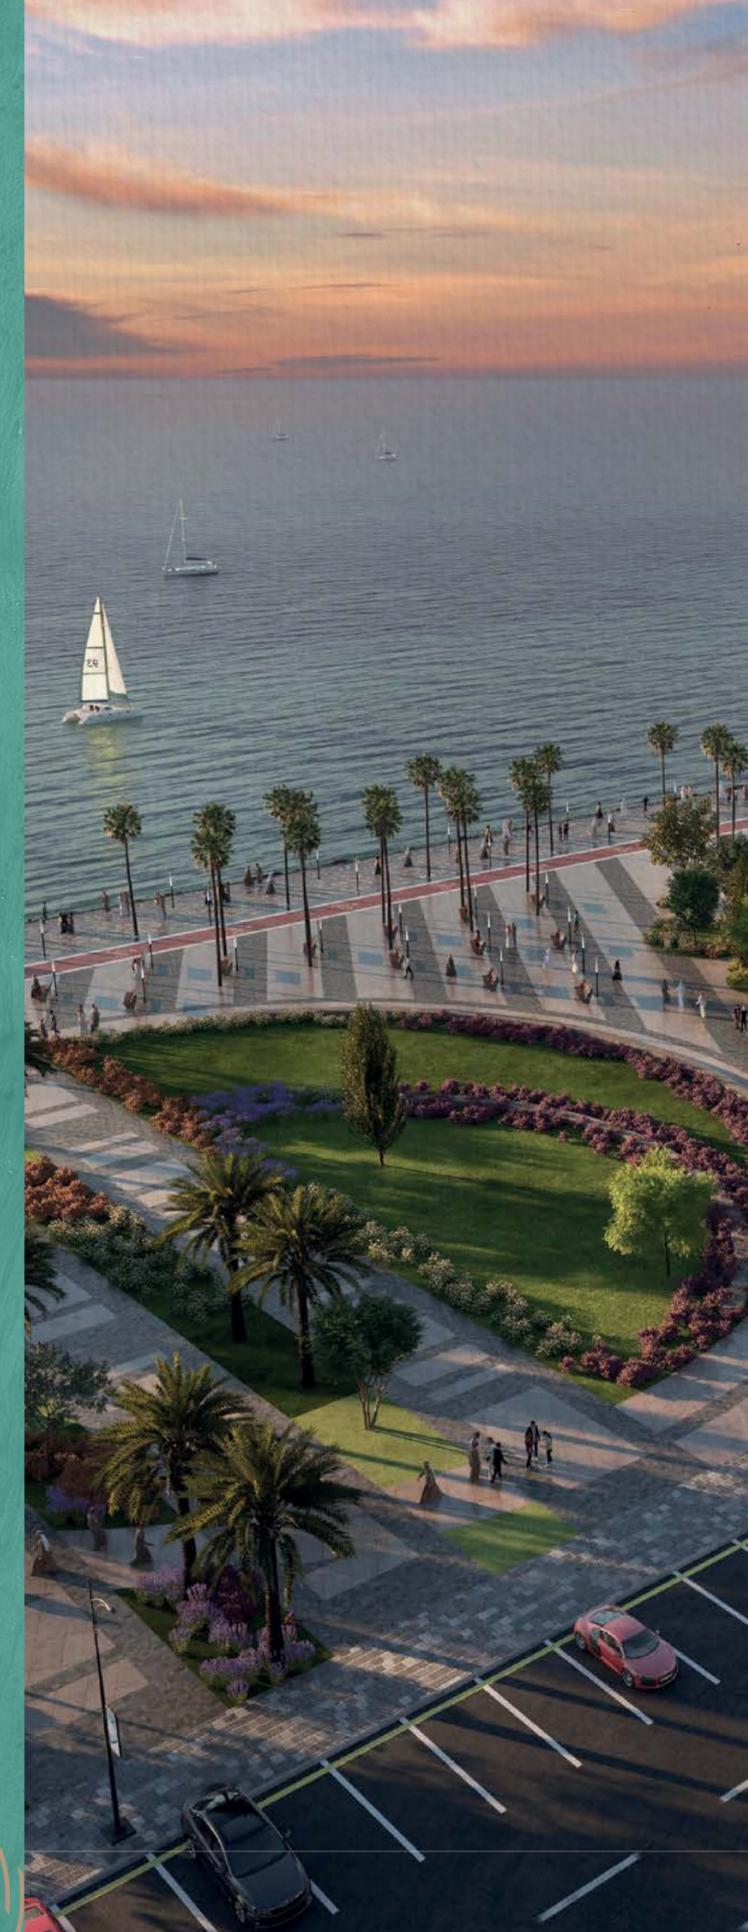

Drive safely to your essential destinations

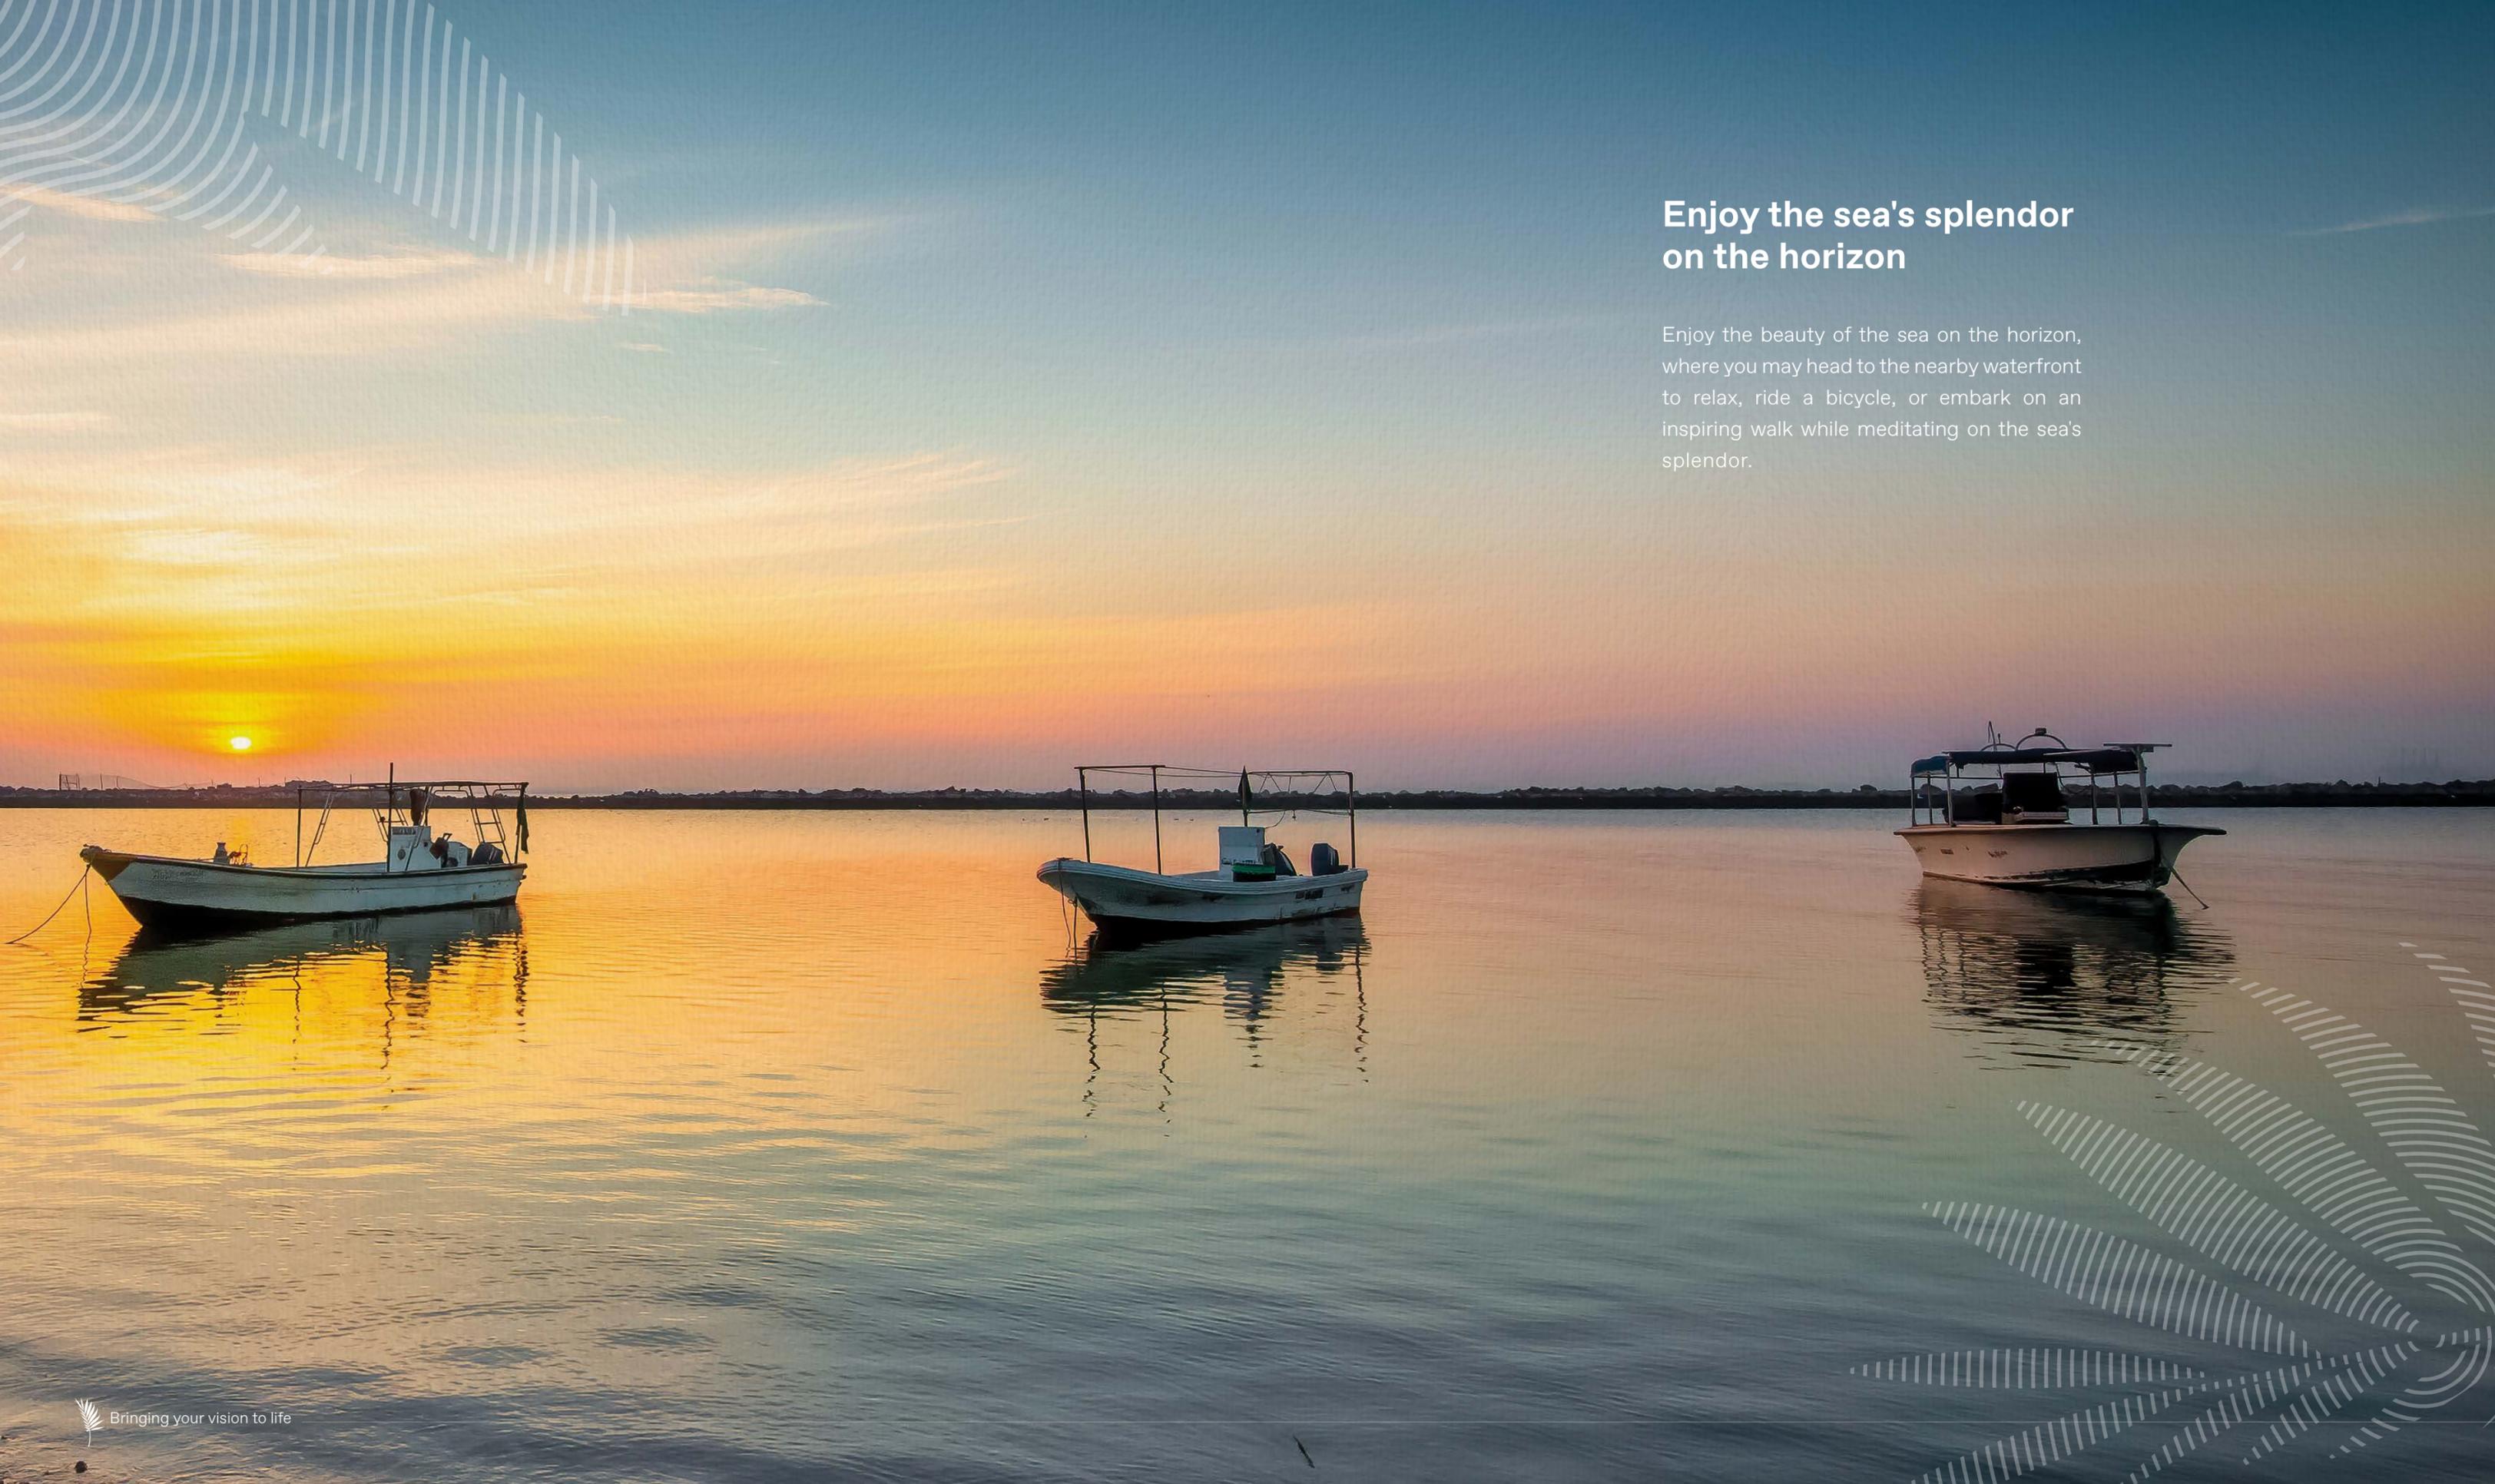

Drive safely between your home and your needs, through a unique traffic system designed with the utmost security and accuracy.

Enjoy a smooth passage to your destination, with wide roads, and entrances designed in a smart way to avoid congestion when crossing vehicles and restrict traffic to residents of the city.

Start an inspirational journey on foot

We understand how wonderful it is to live near green spaces that dazzle eyes with scenic nature, and have a great time meditating and relaxing, enjoying time with family, or simply talking with friends.

Enjoy the sea's splendor on the horizon

Enjoy the beauty of the sea on the horizon, where you may head to the nearby waterfront to relax, ride a bicycle, or embark on an inspiring walk while meditating on the sea's splendor.

A world-class quality of life

Because human beings are prioritized in modern societies, Aseeb's infrastructure is built to be less polluting, more sustainable, and smarter. To meet the demands of the present period, the infrastructure is built on the most recent global technical standards.

53

Dreams and Lives

53 villas that are the perfect embodiment of sustainable housing communities. Our villas provide families with a sense of calmness and security, make them feel welcome in their vast spaces, awaken the passion for creating memories and provide a great sense of satisfaction at the heart of the integrated services provided.

Aseeb

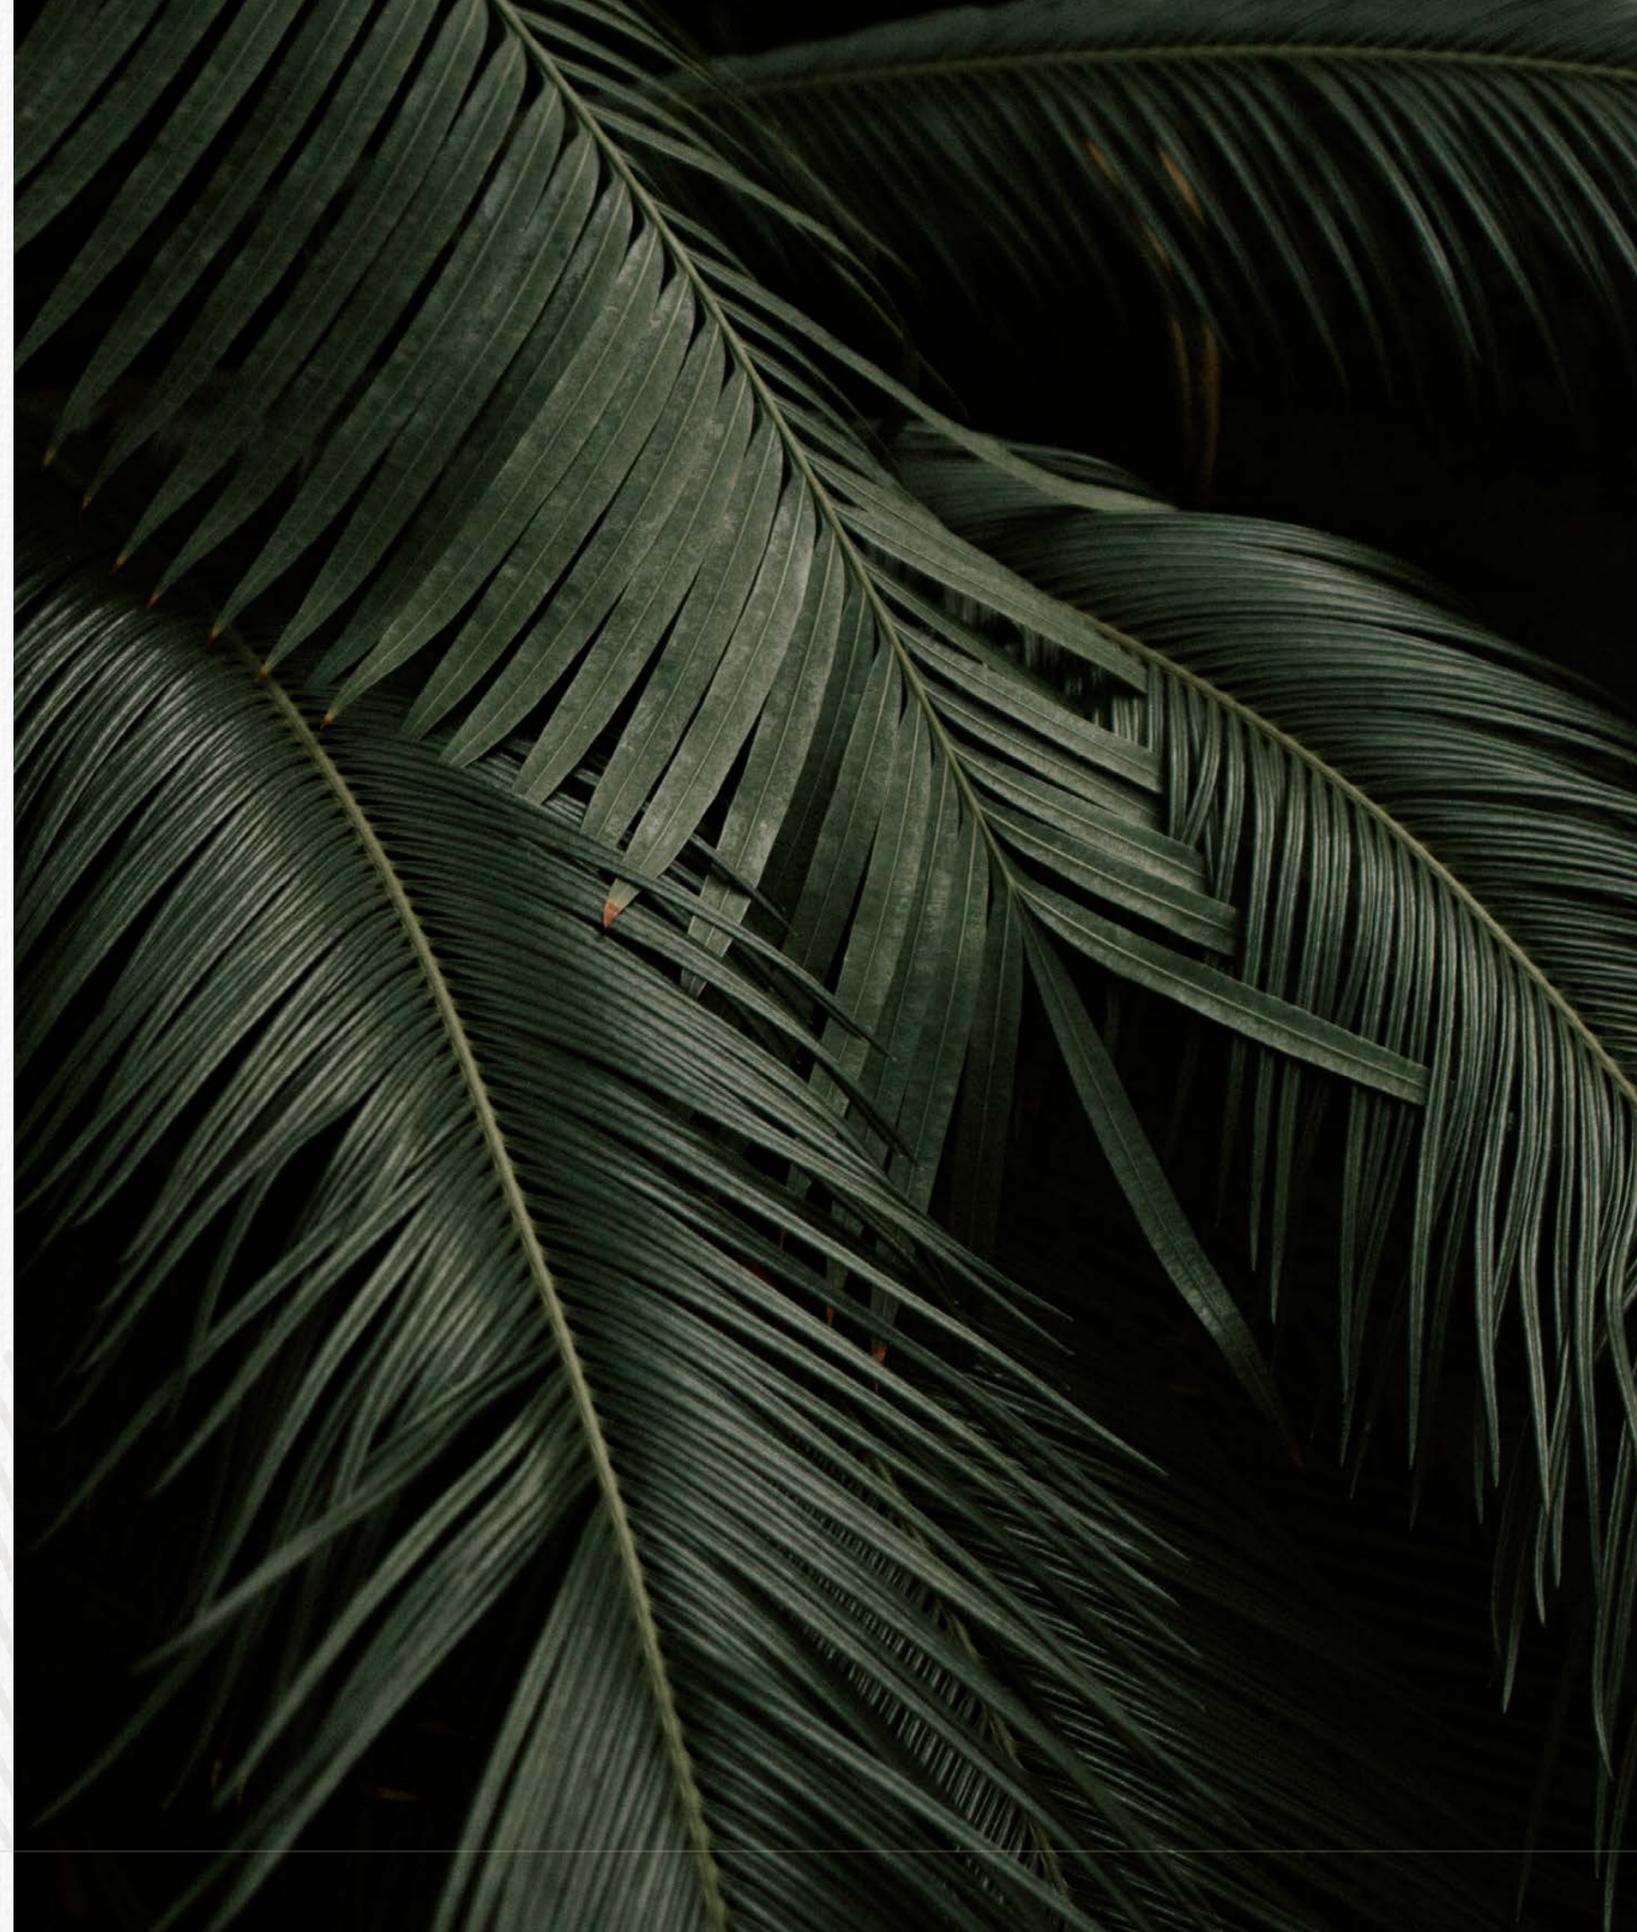

Solid groundwork and a delightful neighbourhood

In Arabic culture, Aseeb is the solid portion that unites the palm fronds. In this integrated project of Tharwa city, located in the heart of the Eastern Province, Thabat applies the essence of its expertise.

The project expresses the Arabic identity and the richness of the future in all its elements and aspects. It merges authentic heritage with the beautiful present, offering residences adjacent to each other in great precision and harmonized painting.

53

Aseeb project offers you 53 high-end housing units.

Aseeb

Your dream home with an abundance of opportunities

Aseeb, three plots of residential land that have been partitioned and developed with a high investment sense to keep up with future living ideals.

The project is located in a prime location in the center of Tharwa city, near Khobar and Dammam cities, as well as the South Dammam Corniche, Rakah area, Imam Abdulrahman Bin Faisal University, and many public facilities.

We provide our clients with a residential community inspired by their identity, culture, and lifestyle, complete with green spaces and proximity to the best educational institutions and numerous services.

villas

Greenery Location meeting nature

In Aseeb, we pay close attention to both the slightest and major elements. The residential units are beautiful in design and adhere to Saudi culture, with the best use of space, spacious rooms, and a flexible design that permits the addition or removal of extensions.

Glass Facades Beauty to the horizon

Glass facades that overlook green landscapes are stunning, and beauty becomes what is visible from a distance, giving the villa a beautiful exterior facade that expresses our artistic style.

Thabat Real Estate Development

Thabat Real Estate Development was formed with confidence and inherited foundations to become an extension of Thabat Holding's history. It continues its experience in presenting the Kingdom's most promising projects and ideas as well as providing people with a new experience of urbanization and inspirational societies.

We select the most distinctive locations in neighborhoods that reflect contemporary authenticity with integrated facilities, vibrant environments, greenery, and modern technologies, where stability is a feature of each structure and modernity is the focus of every destination.

Thabat Real Estate Development Team comprises elite development partners, engineers, designers, and contractors who lay the nation's vision and the dreams of its citizens as a bedrock for each upscale urban environment. They understand well what each family is looking for and strive to transform the dream of owning the home of a lifetime into reality. Built on the power of quality and expertise, our team develops residential neighborhoods with the best quality and depth of experience.

Thabat Construction

The Kingdom's leading builder and constructor

We work with Thabat Construction, a major contractor with over 45 years of expertise. It offers a diverse variety of construction and infrastructure projects that have become a benchmark in Saudi Arabia for being completed in record time and with the utmost regard for quality and safety.

Thabat Construction has also formed long-term strategic partnerships with prestigious local, regional, and global institutions and applied international best practices in terms of quality, safety, and professionalism. As a result, it became a leader in Saudi Arabia's construction industry and consistently delivers complex construction projects that surpass all expectations.
